

EZEE GO, Ezee, EZEE GO+ Tobacco 0

Safety data sheet

according to Regulation EC 1907/2006 (REACH) and subsequent amendment Regulation EU 878/2020

SECTION 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name:	EZEE GO, Ezee, EZEE GO+ Tobacco 0
UFI:	8C00-F00Q-T003-GCF9
Nanoforms:	It does not pertain to one or more nanoforms, or substances that include nanoforms.

1.2. Relevant identified uses of the substance or mixture and uses advised against

Description/Use	Liquid for e-cigarette without nicotine/ Flavoured e-liquid		
Intended use:	Industrial	Professional	Consumer
Electronic cigarette		X	X

1.3. Details of the supplier of the Safety Data Sheet

Name:	Ezee Trading ApS
Full address:	Birkerød Kongevej 137F 3460. Birkerød
District and Country:	Denmark - 0045 3115 6599
E-mail address of the competent person responsible for the Safety Data Sheet:	Mathias Christensen. Mathias@ezee-e.dk

1.4. Emergency telephone number

For urgent inquiries refer to:	0045 3115 6599; Mathias Christensen. Mathias@ezee-e.dk; NHS 111
--------------------------------	---

SECTION 2. Hazards identification

2.1. Classification of the substance or mixture

The product is classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements). The product thus requires a Safety Data Sheet that complies with the provisions of EC Regulation 1907/2006 and subsequent amendments. Any additional information concerning the risks for health and/or the environment are given in sections 11 and 12 of this sheet.

Hazard classification and indication:

Skin Sens. 1	H317	May cause an allergic skin reaction
--------------	------	-------------------------------------

2.2. Label elements

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements

Hazard pictograms:

EZEE GO, Ezee, EZEE GO+ Tobacco 0

**Signal words:** Warning**Hazard statements:**

H317 May cause an allergic skin reaction

Precautionary statements:

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P302 + P352 IF ON SKIN: Wash with plenty of water/...

P333 + P313 If skin irritation or rash occurs: Get medical advice /attention.

P362 + P364 Take off contaminated clothing and wash it before reuse.

P501 Dispose of contents/container in accordance with local regulations.

Contains:

4-Hydroxy-2,5-dimethylfuran-2(3H)-one

Product not intended for uses provided for by Dir.2004/42/CE.

2.3. Other hazards

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0.1%.

The product does not contain any substance identified as having endocrine disrupting properties in percentage greater than 0.1%.

SECTION 3. Composition/information on ingredients**3.1. Substances**

Information not relevant

3.2. Mixtures

Contains:

The full wording of hazard (H) phrases is given in section 16 of the sheet.

Identification	%	Classification 1272/2008 (CLP)
Ethyl maltol	0.28 < x < 0.34	Acute Tox. 4 H302; Aquatic Acute 1 H400

CAS: 4940-11-8

EC: 225-582-5

INDEX: -

REACH: 01-2120758795-36-XXXX

Identification	%	Classification 1272/2008 (CLP)
4-Hydroxy-2,5-dimethylfuran-2(3H)-one	0.10 < x < 0.11	Eye Irrit. 2 H319; Skin Sens. 1A H317

EZEE GO, Ezee, EZEE GO+ Tobacco 0

REACH: 01-2120105798-49-XXXX		
SECTION 4. First aid measures		
4.1. Description of first aid measures		
EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. If problem persists, seek medical advice. SKIN: Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention immediately. Wash contaminated clothing before using again. INHALATION: Remove to open air. If the subject stops breathing, administer artificial respiration. Get medical advice/attention immediately. INGESTION: Get medical advice/attention immediately. Do not induce vomiting. Do not administer anything not explicitly authorized by a doctor. PROTECTION MEASURES FOR FIRST RESPONDERS: Concerning PPE suitable for first aid operations, please refer to section 8.2 of this safety data sheet.		
4.2. Most important symptoms and effects, both acute and delayed		
Specific information on symptoms and effects caused by the product are unknown. For symptoms and effects caused by the contained substances, see chap. 11.		
4.3. Indication of any immediate medical attention and special treatments needed		
Information not available		
SECTION 5. Firefighting measures		
5.1. Exstinguishing media		
SUITABLE EXTINGUISHING EQUIPMENT		
The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray.		
UNSUITABLE EXTINGUISHING EQUIPMENT		
Do not use water jets. The water is not effective to extinguish a fire, however it can be used to cool the closed containers next to the flame and prevent explosion.		
5.2. Special hazards arising from the sustance or mixture		

EZEE GO, Ezee, EZEE GO+ Tobacco 0

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE

Do not breath combustion products

5.3. Advice for firefighters**GENERAL INFORMATION**

Use jets of water to cool the containers to prevent product decomposition and the development of sustances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from drying into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL EQUIPMENTS FOR FIREFIGHTERS

Normal firefighting clothing i.e. fire kit (EN 469), gloves (EN 659) and boots (HO specification A29 and A30) in combination with self contained open circuit positive pressure compressed air breathing apparatus (EN 137).

SECTION 6. Accidental release measures**6.1. Personal precautions, protective equipment and emergency procedures**

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the Safety Data Sheet) to prevent any contamination of a skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water

6.3. Methods and material for containment and cleaning up

Collect the leaked product into a suitable container. If the product is flammable, use explosion-proof equipment. Evaluate the compatibility of the container to be used for, by checking Section 10. Absorb the reminder with inher absorbent material. Make sure the leakage site is well aired. Contaminated material should be disposed in compliance with the provisions set forth in point 13.

6.4. References to other sections

Any information on personal portection and disposal in given in Sections 8 and 13.

SECTION 7. Handling and storage**7.1. Precautions for safe handling**

Before handling the product, consult all the other sections of this material Safety Data Sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.

7.2. Conditions for safe storage including any incompatibility

Store only in the original container. Store the containers sealed, in a well ventilaed place, away from direct sunlight. Keep containers away from any incompatible material, see Section 10 for details.

7.3. Specific end use(s)

EZEE GO, Ezee, EZEE GO+ Tobacco 0

Information not available

SECTION 8. Exposure controls/personal protection**8.1. Control parameters**Substance name: **Glycerol**

CAS: 56-81-5

DNEL/DMEL (Derived No-effect level/Derived minimal effect level): Not available

PNEC (Predicted No-effect Concentration): Not available

Substance name: **Propylene glycol**

CAS: 57-55-6

DNEL/DMEL (Derived No-effect level/Derived minimal effect level): Not available

PNEC (Predicted No-effect Concentration): Not available

WORKPLACE EXPOSURE LIMIT (WEL)

Country: GB (EH40/2005)

Route of exposure: -

8 h [mg/m³]: total vapour and particulates 474; particulates 10

8 h [ppm]: total vapour and particulates 150; particulates -

Short term (15 minutes) [mg/m³]: total vapour and particulates -; particulates -

Short term (15 minutes) [ppm]: total vapour and particulates -; particulates -

8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration. Personal protective equipment must be CE marked, showing that it complies with applicable standards.

HAND PROTECTION

Protect hands with category III work gloves (see standard EN 374).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

EZEE GO, Ezee, EZEE GO+ Tobacco 0

SKIN PROTECTION

Wear category I professional long-sleeved overalls and safety footwear (see Directive 89/686/EEC and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

EYE PROTECTION

Wear airtight protective goggles (see standard EN 166).

In the presence of risks of exposure to splashes or squirts during work, adequate mouth, nose and eye protection should be used to prevent accidental absorption.

RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, a mask which class must be chosen according to the limit of use concentrations. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties**9.1. Information on basic physical and chemical properties**

Physical state:	Liquid
Colour:	Various
Odour:	Characteristic
Melting point / freezing point:	Not available
Initial boiling point:	Not available
Boiling range:	Not available
Flammability:	Not applicable
Lower explosive limit:	Not available
Upper explosive limit:	Not available
Flash point:	> 60 °C
Auto-ignition temperature:	Not available
Decomposition temperature:	Not available
pH:	5.00 - 7.00
Kinematic viscosity:	Not available
Solubility:	Not available
Partition coefficient n-octanol/water (log value):	Not available
Vapour pressure:	Not available
Relative density:	1.0 - 1.3 g/cm ³
Relative vapour density:	Not available
Particle characteristics:	Not available

9.2. Other information

Oxidising properties :	Not available
------------------------	---------------

EZEE GO, Ezee, EZEE GO+ Tobacco 0

Explosive properties :	Not available
Evaporation rate :	Not available
9.2.1. Information with regard to physical hazard classes	
Not available	
9.2.2. Information with regard to physical hazard classes	
Not available	
SECTION 10. Stability and reactivity	
10.1. Reactivity	
There are no particular risks of reactions with other substances in normal conditions of use	
10.2. Chemical stability	
The produc is stable in normal conditions of use ad storage	
10.3. Possibility of hazardous reactions	
No hazardous reactions are foreseeabe in normal conditions of use and storage	
10.4. Condition to avoid	
None in particular. However, the usual precautions used for chemical products should be respected	
10.5. Incompatible materials	
Information not available	
10.6. Hazardous decomposition products	
Information not available	
SECTION 11. Toxicological information	
In the absence of experimental data for the product itself, health hazards are evaluated according to the properties of the substances it contains, using the criteria specified in the applicable regulation for classification. It is therefore necessary to take into account the concentration of the individual hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product.	
11.1. Information on toxicological effects	
Acute toxicity	
Does not meet the classification criteria for this hazard class	
ATE _{mix} (Inhalation - vapours): Not Applicable	
ATE _{mix} (Inhalation - mists / powders) of the mixtures: not classified (no significant component)	

EZEE GO, Ezee, EZEE GO+ Tobacco 0

ATE _{mix} (Oral): 144962.07 mg/kg ATE _{mix} (Dermal) of the mixtures: not classified (no significant component) 4-Hydroxy-2,5-dimethylfuran-2(3H)-one LD50 Oral 1608 mg/kg bw (Mouse)
Skin corrosion / Skin irritation
Does not meet the classification criteria for this hazard class
Serious eye damage / Irritation
Does not meet the classification criteria for this hazard class
Respiratory or skin sensitisation
May cause an allergic skin reaction
4-Hydroxy-2,5-dimethylfuran-2(3H)-one
Skin sens 1A (Mouse) - OECD 429
Germ cell mutagenicity
Does not meet the classification criteria for this hazard class
Carcinogenity
Does not meet the classification criteria for this hazard class
Reproductive toxicity
Does not meet the classification criteria for this hazard class
STOT – Single exposure
Does not meet the classification criteria for this hazard class
STOT – Repeated exposure
Does not meet the classification criteria for this hazard class
Aspiration toxicity
Does not meet the classification criteria for this hazard class
11.2 Information on other hazards
Not applicable
11.2.1 Endocrine disrupting properties
Not applicable
11.2.2 Other information
Not applicable
SECTION 12. Ecological information
Not being data available, use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.
12.1. Toxicity
Not classified for acute hazards (no significant component). Not classified for chronic hazards (no significant component)

EZEE GO, Ezee, EZEE GO+ Tobacco 0

12.2. Persistence and degradability
Information not available
12.3. Bioaccumulative potential
Not determined
12.4. Mobility in soil
Information not available
12.5. Results of PBT and vPvB assessment
On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0.1%
12.6. Endocrine disrupting properties
Not applicable
12.7. Other adverse effects
Information not available
SECTION 13. Disposal considerations
13.1. Waste treatment methods
Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations. Disposal must be performed through an authorized waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.
SECTION 14. Transport information
The product is not dangerous under current provision of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Inland Waterways Dangerous Goods Code (ADN), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA/IACAO) regulations.
14.1 UN number
Not applicable
14.2. UN proper shipping name
Not applicable
14.3. Transport hazard class(es)

EZEE GO, Ezee, EZEE GO+ Tobacco 0

Not applicable	
14.4. Packing group	
Not applicable	
14.5. Environmental hazards	
Not applicable	
14.6. Special precautions for user	
Not applicable	
14.7. Trasport in bulk according to Annex II of MARPOL and the IBC Code	
Information no relevant	
SECTION 15. Regulatory information	
15.1. Safety, health and environmental regulatios/legislation specific for the substance or mixture	
Seveso Category - Directive 2012/18/EC:	
None	
Restriction relating to the product or contained substnace pursuant to Annex XVII to EC Regulation 1907/2006	
Product	
Point	3
Substances in Candidate List (Art. 59 REACH)	
On the basis of available data, the product does not contain any SVHC in percentage greater than 0.1%	
Substances subject to authorization (Annex XIV REACH)	
None	
Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012	
None	
Substances subject to the Rotterdam Convention	
None	
Substances subject to the StockholmConvention	
None	
Healthcare controls	
Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/EC directive is respected.	

EZEE GO, Ezee, EZEE GO+ Tobacco 0

15.2. Chemical safety assessment

No chemical safety assessment has been processed for the mixture

SECTION 16. Other information

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

Acute Tox. 4	Acute toxicity, category 4
Aquatic Acute 1	Hazardous to the aquatic environment — Acute Hazard, Category 1
Aquatic Chronic 2	Hazardous to the aquatic environment — Chronic Hazard, Category 2
Eye Irrit. 2	Eye irritation, category 2
Skin Irrit. 2	Skin Irritation, category 2
Skin Sens. 1	Skin Sensitisation, category 1
Skin Sens. 1A	Skin Sensitisation, category 1A
EUH208	Contains ... May produce an allergic reaction.
H302	Harmful if swallowed
H315	Causes skin irritation
H317	May cause an allergic skin reaction
H319	Causes serious eye irritation
H400	Very toxic to aquatic life.
H411	Toxic to aquatic life with long lasting effects.

Classification according to Regulation (EC) Nr. 1272/2008

Classification procedure

Skin Sens. 1	Calculation method
--------------	--------------------

Legend:

- ADR: European agreement concerning the carriage of dangerous goods by road
- ADN: Internations inland waterways code for dangerous goods
- ATE: Acute toxicity estimate
- ATE_{mix}: Acute toxicity estimate of mixture
- CAS NUMBER: Chemical abstract service number
- CE NUMBER: Identifier in ESIS (European archive of existing substances)
- CLP: EC Regulation 1272/2008
- DNEL: Derived no effect level
- DMEL: Derived minimal effect level
- EmS: Emergency schedule
- GHS: Globally harmonized system of classification and labeling of chemicals
- IATA DGR: International air transport association dangerous goods regulation
- IMDG: International maritime code for dangerous goods
- IMO: International maritime organization
- INDEX NUMBER: Identifier in Annex VI of CLP
- IOELV: Indicative OEL value
- LC50: Lethal concentration 50%
- LD50: Lethal dose 50%
- OEL: Occupational exposure level
- PBT: Persistent bioaccumulative and toxic as REACH Regulation
- PEC: Predicted environmental Concentration

EZEE GO, Ezee, EZEE GO+ Tobacco 0

- PEL: Predicted exposure level
- PNEC: Predicted no effect concentration
- REACH: EC Regulation 1907/2006
- RID: Regulation concerning the international transport of dangerous goods by train
- TLV: Threshold Limit Value
- TLV CEILING: Concentration that should not be exceeded during any time of occupational exposure.
- TWA STEL: Short-term exposure limit
- TWA: Time-weighted average exposure limit
- VOC: Volatile organic compounds
- vPvB: Very persistent and very bioaccumulative as for REACH regulation
- WGK: Water hazard classes (German)
- WEL: Workplace Exposure Limit
